Public Employees Deferred Salary Leave Fund

Introduction

The Public Employees Deferred Salary Leave Fund was established on April 4, 1989.

The Fund is used to account for the transactions of the Deferred Salary Leave Plan, which allows employees to defer a portion of their salary for a period of twelve to seventy-two months. The deferred salary must then be used in financing a leave of absence for durations of six to twelve months, subject to the approval of the employer and the terms and conditions of the Plan.

The Fund is a prescribed plan pursuant to regulation 6801 of the *Income Tax Act*.

PUBLIC EMPLOYEES DEFERRED SALARY LEAVE FUND

FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2005

AUDITOR'S REPORT

To the Members of the Legislative Assembly of Saskatchewan

I have audited the statement of net assets of the Public Employees Deferred Salary Leave Fund as at December 31, 2005 and the statement of changes in net assets for the year then ended. The Fund's management is responsible for preparing these financial statements for Treasury Board's approval. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with Canadian generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the net assets of the Fund as at December 31, 2005 and the changes in net assets for the year then ended in accordance with Canadian generally accepted accounting principles.

PUBLIC EMPLOYEES DEFERRED SALARY LEAVE FUND
NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2005

1. Description of Fund

The Public Employees Deferred Salary Leave Plan (Plan) was established on April 4, 1989 and continues under subsection 64(2) of *The Financial Administration Act, 1993* (Act). The Public Employees Deferred Salary Leave Fund is used to account for the transactions of the Plan. Net assets of the Fund represent the accumulated amounts payable to the participants when they take leave of absence or otherwise withdraw from the Fund.

The Plan is managed by the Public Employees Benefits Agency (PEBA). Pursuant to the Act, PEBA is allowed to enter into agreements with other parties to provide administrative services for the Plan. Under an agreement dated February 15, 2002, Canadian Western Trust Company provides trustee and investment management services. Also, under an agreement dated February 1, 2002, the Recordkeeper Inc. provides employee statements and recordkeeping services to the Plan.

The Plan allows participating employees to defer a portion of their salary for a period of twelve to seventy-two months. The deferred salary must then be used in financing a leave of absence for any reason for durations of six to twelve months, subject to the approval of the employer and the terms and conditions of the Plan. The portion of the participant's salary deferred during the year is recorded as Contributions, and the deferred salary used during the year is recorded as Redemptions.

Plan participants are employees of the Public Service of Saskatchewan, as defined by *The Public Service Act* and certain Saskatchewan Crown agencies, whose participation in the Plan has been approved by the Lieutenant Governor in Council.

The Plan is a prescribed plan under the *Income Tax Act*.

2. Significant Accounting Policies

These financial statements are prepared in accordance with Canadian generally accepted accounting principles.

3. Investments

The deferred salary is held in GIC deposit accounts maintained for each participating employee. Interest revenue is allocated to individual member accounts based on the weighted average of the interest rates the bank pays for GIC deposits which is 3.75% for 2005 (3.94% in 2004). Each plan participant is also charged a service fee. On December 31, interest for the year is paid to each participating employee.

4. Fair Value of Financial Instruments

The fair value of investments approximates their market value due to their short-term nature.

The fair value of accounts payable approximates their carrying value due to their immediate or short-term nature.

5. Budget

The Public Employees Benefits Agency prepares and approves the budget.

6. Contributions Receivable

Contributions receivable represent contributions for December 2005 that were received after the year end. Due to their short-term nature, the fair value of these receivables approximates their carrying value.
